VOLUME 7
JULY 2023

INSIDE THIS ISSUE

- **Automotive:** Working on internal tire patches, repair estimates and an AC system..
- **Electrical:** OSHA training, Lift training and working on 3-way and 4-way switches to receptacles.
- **STNA:** Cohort B completed 24 hours of clinicals in the role of an STNA. They will now start taking their State STNA tests.

Automotive Pre-Apprenticeship

Designed to introduce career options and role models in connection with the operation, maintenance and repair of automotive vehicles.

Electrical Pre-Apprenticeship

Conducted by seasoned trade instructors at The Independent Electrical Contractors (IEC). The coursework utilizes industry driven curriculum to provide a defined set of competencies through required technical instruction and technical core courses.

STNA Certification

This program consists of 59 classroom and lab hours and 24 hours of clinical. Students who earn their STNA and excel in the program, will have the opportunity to be immediately placed in a job, making up to \$19.00 per hour.

Trades Pre-Apprenticeship

Designed to prepare participants for entry into apprenticeship opportunities with OSHA-10 General Construction, Remedial Math, Basic blueprint reading, Survey of the Construction Industry, Employability Skills for the Construction Trades, and CPR/First Aid.

AUTOMOTIVE

This week was our students final week of programming! To wrap up, the continued working on cars in the auto shop. They did internal tire patches, came up with repair estimates for customers, and repaired an AC system.

COTA Visit

This week was our students final week of programming! This wraps up our summer work experience. Thank you to all the sites and students for working to make this summer special!

ELECTRICAL

The students began the week by finishing their OSHA training on Monday, followed by a hands on lab where they connected three-way and four-way switches to receptacles. On Tuesday, the students used the power tools again to cut different sizes of conduit. On Wednesday, the students participated in Lift Training and became certified to operate two different types of lifts. On Thursday, there were between 15-20 employers who work with IEC who came and interviewed all of our students.

Graduation Friday

The students participated in the graduation celebration for completing the program. Congratulations!!

STNA

Last, But Not Least

For the last week of the Ready 2 Earn STNA summer program, students finished their last two days of clinicals at New Albany Care Center. They completed 24 hours of clinicals in the role of an STNA. They will now start taking their State STNA tests.

Both STNA Cohorts finished out the week commemorating their accomplishments at their graduation that took place at First Church of God. Over 50 youth walked across the stage to receive a certificate for completing the program. Almost half of them have already passed their state STNA exam. It was wonderful watching all of the youth being recognized for their success.

Special thanks to the staff at VIP STNA Academy. They have been nothing short of amazing the past 6 weeks. The patience and flexibility they had with the youth made it very clear how much they believed in the youth and the curriculum they were providing. The students were able to relate to the staff and see themselves in the positions they were working toward.

Leaders of the Year Ashlyn Risner

Ashlyn is a scholar athlete at Hilliard-Darby High School. She is entering her senior year where she will be graduating early. After graduation, she plans on enlisting

in the Navy and becoming a medic. Ashlyn was chosen by her site coordinator and the staff at VIP STNA academy because of her great attitude and all of her hard work. Ashlyn completed all courses and clinicals with a smile on her face. She passed all quizzes and tests with flying colors. She was one of the first students from Cohort A to pass her state STNA exam. Congratulations Ashlyn! We wish you success in your future endeavors.
