Week of 6/20/2023

Lead The Way Learning Academy

This week kicked off the first week of the Pre-Apprenticeship program in partnership with Performance Automotive.

The beginning of the week started with some basic training and an orientation of the program. Throughout the summer, participants will engage in classroom sessions to gain a basic understanding of becoming an automotive technician and mechanic.

During this week's class instruction. Instructor Andy introduced various tools that are used to work on vehicles.

After learning about the tools used in the shop, students were quizzed on their knowledge of the tools.

The last few hours of the day, students spent time in the shop, getting hands-on experience. They were introduced to the lift that allows cars to be elevated for mechanics to easily access the parts under the car to provide repair.

Reminders

- BE ON TIME! You should be signed in and in your seat by 1:00pm each day. Not being on time and unexcused call-offs can result in removal from the program.
- Dress appropriate at all times.
- Wearing your steel-toe shoes is a MUST everyday.

Week of 6/20/2023

Lead The Way Learning Academy

Reminders

- Absolutely NO cell phone use in the facility, except during lunch.
- Must wear closed-toe shoes, clean and rip free jeans, and a plain colored t-shirt.
- You MUST be on time everyday; we recommend arriving at least 15 minutes early.

Next Week

The students are excited to get started next week at the worksite. They will be in a very interactive lab, learning the trade with hands-on experiences.

Leadership Training

This week during orientation, we focused on leadership and professional development training. The students had the opportunity to meet with and learn from Mr. Lee, with a hands-on leadership training. They learned what it takes to be successful in a

professional setting, as well as how to lead others effectively.

Week of 6/20/2023

Lead The Way Learning Academy

Off To A Great Start

On Tuesday, June 20th, the young adults lined up and signed in for Ready to Earn. Their first week was orientation, which consisted of meeting the other young adults they would be in the field with, going over handbooks and rules for the employers they will be working for, meeting the people who will be training them in their field, taking a deeper dive into what career opportunities their pathway may lead to and taking a course in leadership excellence. The two-day course helped the young adults focus on their strengths as leaders and pull out the hidden leadership skills they had. Multiple students earned rewards for all of the amazing ideas they shared on how they wanted to use their leadership skills to change the world.

After two weeks of intense training, the group will head out to multiple sites to get hands on training for a full week. Once the 3 weeks with VIP STNA Academy are complete, the group will take their state test to become licenced in the state of Ohio as an STNA.

STNA Facts

An STNA (State Tested Nurses Aide) may also be referred to as a CNA (Certified Nurses Aide).

Reminders

- Closed toe shoes
- Be ready to change into scrubs (Provided by VIP STNA Academy)
- No artificial nails
- Pack lunch or use a delivery service. Lunch will not be provided.

Next week, the first cohort from the State Tested Nurses Aide group will begin classroom instruction.

Leaders of the Week

Ashlyn Risner

Ashlyn is a scholar athlete at Hilliard Darby High School. After graduation she plans on enlisting in the navy and becoming medic.

Aniyah Thorne

Aniyah is a scholar athlete at Bishop Hartley High School. She plans on becoming a traveling nurse.

Week of 6/20/2023

Lead The Way Learning Academy

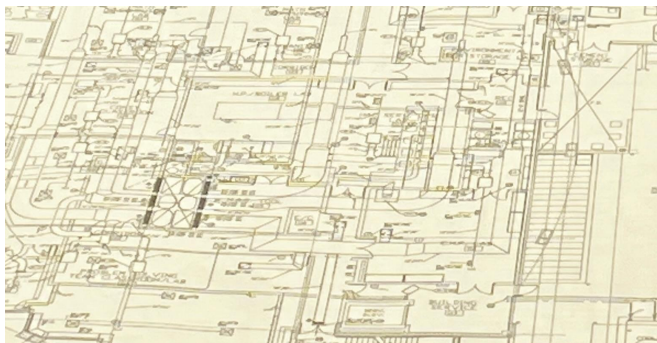

We kicked off the first week of the Pre-Apprenticeship program with Turner Construction. Participants were given a “Project Safe and Sustainable” onsite orientation.

Each week, students will spend time reflecting and developing skill sets outlined by the Ohio Means Jobs Readiness Seal. This summer, students will focus on strengthening their skills in punctuality, teamwork/collaboration, and professionalism.

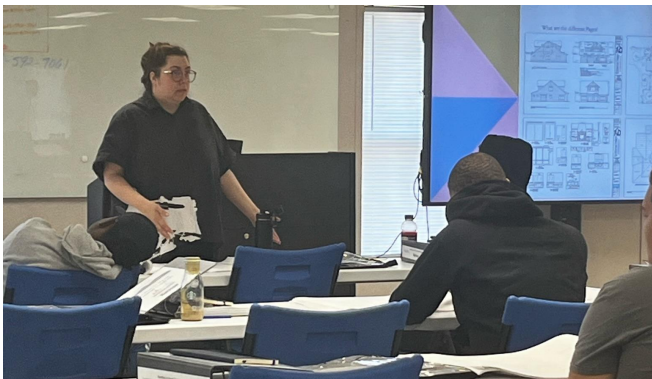

In this week's Blueprint course. Participants were introduced to blueprint reading for drywall, electric, and plumbing.

Hands-on experience @ Columbus State
