

In-Class Instruction

This week, students learned the ins and outs of a car battery and brake systems. They learned about how these systems function, its importance, and connectivity within the car. Students also learned about the dangers of sulfur when working in the auto-shop.

Hands-On Experience: Auto Shop

Students were fully engaged as they gained hands-on experience working on changing tires.

Electrical Newsletter

Week of 6/26/2023

Lead The Way Learning Academy

This week, the students were introduced to the Electrical Pre-Apprenticeship at their worksite, Independent Electrical Contractors. At the beginning of the week, they learned about the basics, such as: different types and levels of electricians; different phases and voltages of electricity; what to expect; and how to collaborate at different worksites. By the middle and end of the week, the students had advanced to learning about different tools, their uses, and how to safely operate the tools and devices. Electricians have a very dangerous job, and it was emphasized how important safety is and what can happen if these protocols aren't utilized on the job.

Professional Development Friday

For professional development we worked on:

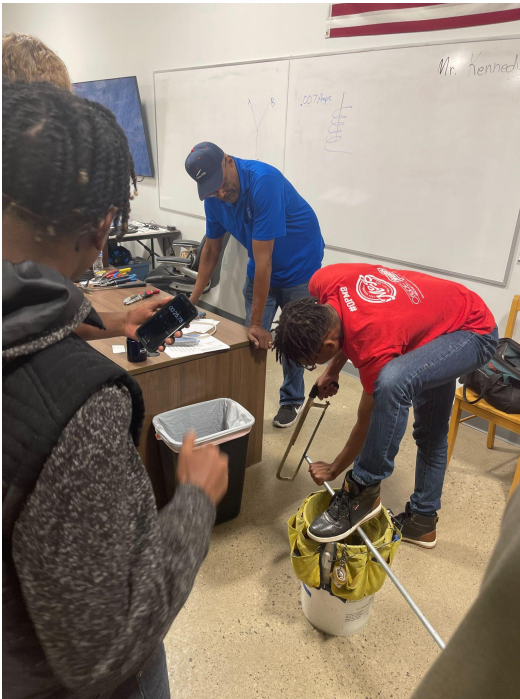

- Building student's professional resume
- 16 Personality Test
- Choosing a Career

Reminders

- Bring your notebook to class each day.
- Complete homework assignments on time.
- Be on time!! If you arrive before 7:45am, use front doors. Use side doors after 7:45am.
- Cell phones are to remain on the desk, face down, at all times.
- There is no class on Tuesday, July 4th.

Next Week:

The students' tool kits and PPE wear should be delivered by Monday. This is exciting because it means students will begin working hands-on in the lab, which they are looking forward to!

Leader of the Week

Savion Brown

Savion Brown graduated from Southwestern Career Academy in 2023. He chose this program to expand his knowledge about electricity. His dream career is to be a business owner. His hobbies include playing soccer, chess, and poker. Savion was chosen as the employee of the week because of his punctuality and high level of engagement with the instructors in the classroom.

Week of 6/26/2023

Lead The Way Learning Academy

Hitting the Ground Running

The first cohort of STNA students started their week at VIP STNA Academy. They spent five days learning multiple skills per day and following a fast paced classroom curriculum. Their new skills include bedside manners, getting a patient out of bed, putting on compression socks, proper hand washing, changing bed linen with a patient in the bed, helping a patient to the restroom, dental care, feeding patients, peri care and much more.

Rolling a patient after peri care.

Putting compression socks on a patient

Reminders

- Closed toe shoes
- No phones
- No artificial nails
- Pack lunch or use a delivery service. Lunch will not be provided.

Feeding a patient

Practicing proper bedside manners and greeting patients with impaired hearing.

Leaders of the Week

**Rachael
Elvis-Iteogu**

Week of 6/26/2023

Lead The Way Learning Academy

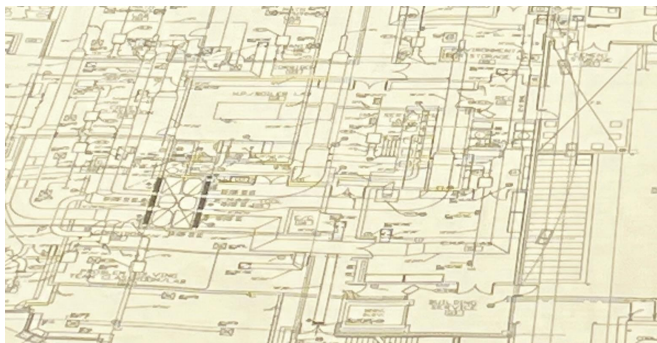

We kicked off the first week of the Pre-Apprenticeship program with Turner Construction. Participants were given a “Project Safe and Sustainable” onsite orientation.

Each week, students will spend time reflecting and developing skill sets outlined by the Ohio Means Jobs Readiness Seal. This summer, students will focus on strengthening their skills in punctuality, teamwork/collaboration, and professionalism.

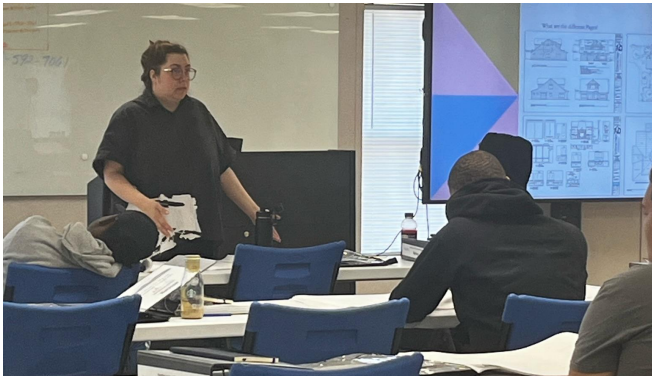

In this week's Blueprint course. Participants were introduced to blueprint reading for drywall, electric, and plumbing.

Hands-on experience @ Columbus State

Reminders

- BE ON TIME! You should be signed in and in your seat by 8:30am each day. Not being on time and unexcused call-offs can result in removal from the program.
- Dress appropriate at all times.
- Wearing your steel-toe shoes is a MUST everyday.
