JUNE 2024

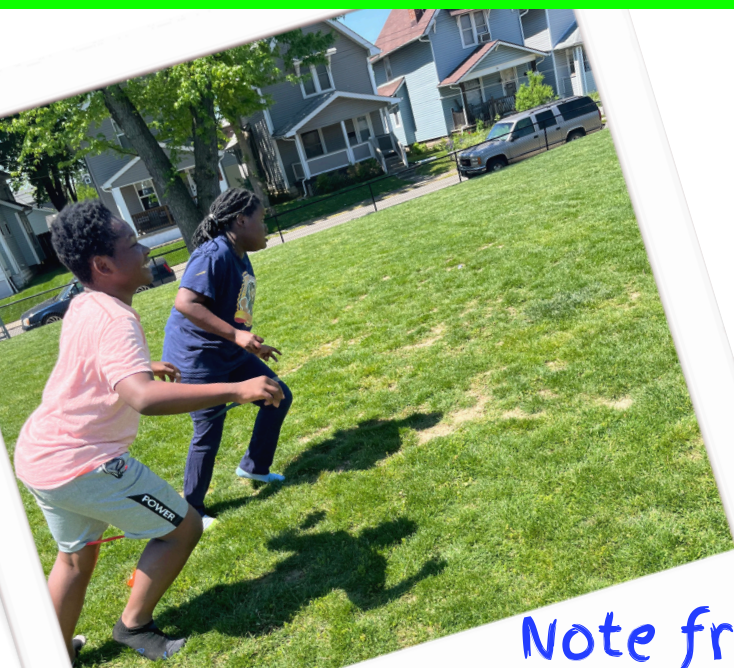

Our mission:

Is centered around nurturing the holistic development of youth, emphasizing three pillars:

Social-Emotional Intelligence | Parent Engagement | Academic Support.

Social-emotional intelligence is paramount as it equips young individuals with the necessary skills to navigate relationships, manage emotions, and make responsible decisions, crucial for their personal and professional growth. Parent engagement is pivotal in reinforcing positive behaviors, fostering communication, and creating a supportive environment that empowers youth to thrive. Additionally, academic support provides the scaffolding necessary for students to excel academically, unlocking their potential and preparing them for future success in a competitive world.

Note from Jaicey:

"I love coming here because I get to play with other kids, and my teachers make my homework easier to understand. I enjoy the snacks and appreciate how nice everyone is to me. I also love all the games we play while learning about our emotions!"
